How to Assemble a Large-sized (A4) Classroom Reader

Step 1: Print out the pages of the reader.

Step 2: Take the front and back cover pages and arrange with the front cover facing up and the back cover facing down.

Step 3: Take all of the pages and stack in order with the blank sides together (so page 1 is face up, page 2 face down, etc.)

Step 4: Now assemble the book – add the front and back cover pages.

Step 5: Staple along the spine. Three staples is usually enough.

Step 6: Finally, use some masking tape along the spine of the reader.

Your reader is now ready!
